FURTHER EDUCATION

HIGHER EDUCATION

Do something big, work with small children.

Working in early years and childcare is unique and rewarding. You'll work with young children, providing care and early education that helps give them the best start in life.

Work in a nursery or pre-school

From entry level roles to qualified positions as a nursery assistant, room leader or early years teacher, you'll join a team and make a real difference by providing care and education to children under 5.

Become a childminder

As a childminder, you'll provide personalised early education and childcare to small groups of children of different ages. You'll have the freedom to run your own business and work flexibly.

Work in before or after school clubs

From sports to crafts to music, share your passion and provide wraparound care for primary school children. A great role if you're looking for part-time or term-time only work.

Get qualified on the job

Whether you're leaving school or looking to change careers, you can train on the job with an early years apprenticeship. Requiring no previous experience, you'll be employed by a nursery or pre-school and gain valuable skills and a recognised qualification – all while earning a salary!

**The gas network may be hidden under
but its future is being shaped above it,
people like ours.**

Every time you turn on your heating, cook a meal, or take a hot shower, our network is working quietly in the background, keeping life moving.

As the UK's largest gas distribution company, Cadent delivers gas safely and reliably to over 11 million homes and businesses. It's a responsibility we take seriously, because millions of people depend on us every single day.

But our role is changing. While we continue to keep today's network safe and reliable, we're also preparing for a cleaner future – one where hydrogen and low-carbon energy play a vital role.

That means strengthening our infrastructure, investing in innovation, and protecting our systems in every sense – from cyber security and digital resilience to the pipes beneath our feet.

And at the heart of it all is our people. Ordinary people doing extraordinary things, every single day, for the communities we serve.

**ground,
by**

Cadent

From responding to emergencies, to safeguarding our infrastructure against digital threats, to preparing our networks for hydrogen, every colleague at Cadent plays a part in shaping the future of energy.

Visit our stand to learn more!

Discover how Cadent is building the networks of tomorrow, protecting the ones we rely on today, and supporting the communities we proudly serve.

And most importantly, learn how you can find your place with us. Because of the future of energy needs people like you.

Our Ambition. Your Future.
